

KILIMANJARO SUCCESS RATE

TOP KILIMANJARO ROUTES SUCCESS RATES

NORTHERN CIRCUIT SUCCESS RATE

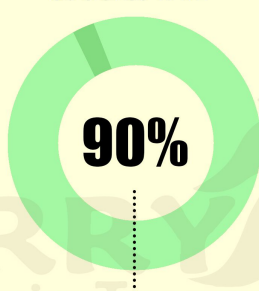

Northern Circuit Route Success Rate is highest among all the routes. Approaching from the southeast direction of Kilimanjaro, this route is a straight route directly to the top having high acclimatization profile.

LEMOSHO ROUTE SUCCESS RATE

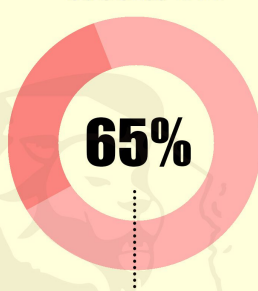

Lemosho Route has longer path which takes 7 to 8 days for summit. It starts from the west direction of Kilimanjaro.

MACHAME ROUTE SUCCESS RATE

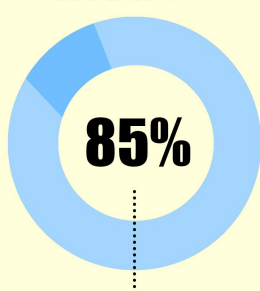

Machame Route has many ups and downs path. This route offers "climb high and sleep low" profile and approaches from south direction of Mt. Kilimanjaro.

MARANGU ROUTE SUCCESS RATE

Marangu Route Success Rate is low because of unpreparedness of hikers and famous as "tourist route". Famous for only route providing hut accommodations, this route approaches from southern direction of Mt. Kilimanjaro.

RONGAI ROUTE SUCCESS RATE

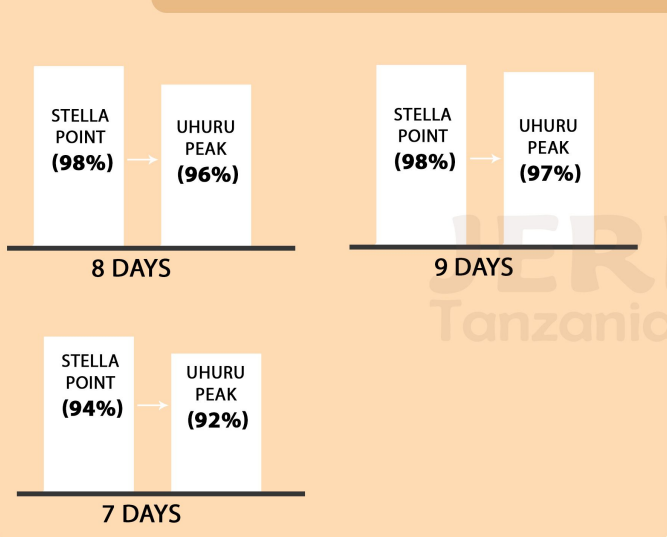

Rongai Route is only driest northern route which can be visited all around the year.

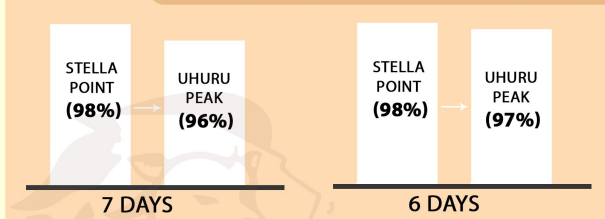

ROUTE	DURATION	DESCRIPTION	SUCCESS RATE
LEMOSHO	7-8 DAYS	Arguably the most beautiful route up the mountain. It's popular, but not as crowded as the Machame route.	HIGH
MACHAME	6-8 DAYS	A very scenic route and the most popular. It's therefore the most crowded route.	HIGH
MARANGU	5-6 DAYS	The original route and the only one with hut accommodation. Not very scenic. We don't recommend this route.	LOW
RONGAI	6-7 DAYS	The only route that approaches the top from the north. It's a good option in the wet season as it receives the least rainfall. It's the easiest route - though still not easy!	MEDIUM
NORTHERN CIRCUIT	9-10 DAYS	The newest and longest Kilimanjaro route. It's very scenic, and is one of the least crowded routes.	HIGH
