Day 2

Day 2 Arusha - Tarangire National Park

In the morning at around 8:00 a.m. your safari guide will arrive at the hotel and inform the receptionist that he is waiting for you. After meeting up with your driver, you will start your approximate two-hour journey to Tarangire National Park. The park is famous for its diverse landscape with nine different vegetation zones. Tarangire is particularly known for the abundance of Ancient Baobab trees (the largest trees in the continent) which fill the landscape and dwarf the animals next to them. The river of the park is full of wildlife ranging from a large variety of birds to lions, leopards, zebras, giraffes, buffaloes, antelopes and, of course, elephants. In fact, this park has the largest concentration of elephants in the whole country and provides unique chances to observe the interaction between elephant families. The lunch area is fascinating, boasting an observatory with amazing views to the river and wildlife (with good chances of seeing a hunt while having your picnic). After an extensive game drive, enjoyed from the open roof of the vehicle, you will reach the Tarangire Sopa Lodge in the early evening for some relaxation and a delicious dinner.

Day 3

Tarangire National Park – Karatu

After a hearty breakfast you will head out on another game drive in the Tarangire National Park. During the dry season between June and October, the Tarangire River is the only permanent source of water and the wildlife tends to concentrate in its vicinity. You will stop at one of the picnic spots for lunch. In the afternoon, you will leave this beautiful park behind. Passing through the multi-cultural town of Mto wa Mbu, the higher lands are soon reached and wonderful views of the Maasai Plains and the Lake Manyara open up before you. After the obligatory photo stop, you will make your way to the vegetation-rich crater highlands. Today's destination is Ngorongoro Oldeani Mountain Lodge situated on a picturesque hill with spectacular views onto Oldeani Mountain and the Ngorongoro Crater Rim.

Day 4

From Karatu to Serengeti National Park, by way of Ngorongoro Conservation Area

After an early breakfast, you will drive towards the most famous National park in the World, the Serengeti. You will drive up the crater highlands, making a quick stop at the rim for an out of this world view of Ngorongoro Crater. This will be an unforgettable moment for anyone seeing it for the first time. As you progress well into the Serengeti, you will see why the name means, in local language, "endless plains". The park has 5,700 sq. mile (14,763 sq. km) and for most of it, the plains will stretch to the horizon defying your senses and perception of distances. It is the home of the Great Migration and to 2 million wildebeests, hundreds of thousands of zebras and all kinds of antelopes including the abundant impalas and Thomson's gazelles. As for Big Cats and large predators, it's the place of choice to look out for lions, cheetahs, leopards, hyenas, with many television scenes like the famous river crossings having been filmed in this park. Smaller animals like foxes, mongoose, honey badgers, jackals, monkeys, baboons, rock hyrax and African hares, together with more than 500 species of birds, also inhabit this park. The stunning Kubu Kubu Tented Lodge will be your home for the two nights.
